## Limited Warranty

All BTC® chucks are warranted to be free of defects in materials and workmanship for a period of **one year** from date of purchase. BTC® will repair or replace the product at our option. This warranty is voided where the product has been modified, misapplied, or improperly maintained.

To obtain clamping accuracy of a chuck, it is necessary to reduce play in the spindle bearing to the allowable minimum.

Insure that the machine spindle nose run out does not exceed manufactures' specifications.

When your need arises, call our service department for information or the distributor nearest you.
